BRODA SDS

Check Stop Wax

SECTION 01: IDENTIFICATION

Product Name: Check Stop Wax

Product Form: Mixture

Other Means of Identifications: Wax Emulsion

Recommended Use: Logs and Lumber End Sealer

Restriction on Use: Not Known

Manufacturer's Name: CBR Products
Supplier's Name: CBR Products (Canadian Building Restoration Products Inc.), #2110 - 1840 Broadway St., Port Coquitlam, BC V3C 2M8, Canada

Phone Number of Preparer: Local 1-604 254-3325

Emergency Telephone Number: Toll-free 1-877-671-1405
Email: broda@cbrproducts.com
Website: www.cbrproducts.com

SECTION 02: HAZARD IDENTIFICATION

GHS Classification GHS Canada)

Not a hazardous substance or mixture.

Physical Hazards Not Known

GHS Label Elements, Including Precautionary Statements

Hazard Pictograms Not Applicable

Signal Word Not Applicable

Hazard Statements Not Known

Precautionary Statements Not Known

NFPA/HMIS Ratings (Scale 0-4)

Health: 1 Fire: 0 Reactivity: 0 Physical Hazards: Not Known

SECTION 03: COMPOSITION/INFORMATION ON INGREDIENTS

Substances: Mixture

Name	CAS No.	W%
Propylene Glycol	57-55-6	0.20
2,2,4-trimethyl-1,3-pentanediol monoisobutyrate	25265-77-4	0.40

SECTION 04: FIRST-AID MEASURES

Description of First Aid Measures

First-aid measures after inhalation
Move exposed person to fresh air. Keep at rest in a position comfortable for breathing. If breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. If unconscious, place in recovery position and get medical attention immediately.

First-aid measures after skin contact
Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if irritation occurs. Wash clothing before reuse.

First-aid measures after eye contact
Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

First-aid measures after ingestion
Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most Important Symptoms and Effects (Acute and Delayed)
Potential Acute Health Effects:
Ingestion- Harmful if inhaled.
Eye contact- causes eye irritation.
Inhalation- May cause respiratory irritation
Skin contact- No known significant effects or critical hazards.

Over- exposure signs/symptoms
Ingestion- No known significant effects or critical hazards.
Eye contact- May cause watering eyes.
Inhalation- May cause respiratory irritation
Skin contact- No known significant effects or critical hazards.

Immediate Medical Attention and Special Treatment:
Notes to Physician- Treat Symptomatically.

Specific Treatment- No specific treatment.

Protection of First- Aiders- No action shall be taken involving any personal risk or without suitable training. Wash contaminated clothing with water before removing it, or wear gloves.

SECTION 05: FIRE FIGHTING MEASURES

Extinguishing Media:

Suitable Extinguishing Media
In case of fire, use water spray (fog), foam, dry chemical or CO2.

Unsuitable Extinguishing Media: Not known

Specific Hazards Arising from the Hazardous Products: Not Known

Hazardous Thermal Decomposition Products- No specific data.

Special Protective Equipment, Precautions for Fire-Fighters.
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full-face respirator.

Further Information
Carbon monoxide, carbon dioxide and other toxic and irritating chemicals may be formed on heating or in a fire.

SECTION 06: ACCIDENTAL RELEASE MEASURES

Personal Precautions/Protective Equipment/Emergency Procedures

For non-emergency personnel: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate protective equipment.
For emergency responders: Use personal protective equipment.
Environmental Precautions
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil and air).

Methods and Materials for Containment and Cleaning Up

Small spill- Move containers from spill area. Dilute with water and mop up.
Large Spill- Immediately stop leak. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a non-combustible, absorbent material e.g., sand, earth, vermiculite or diatomaceous earth and place in a container for disposal according to local regulations.

Other Information: Dispose of materials or solid residues at an authorized site.

SECTION 07: HANDLING AND STORAGE

Precautions for Safe Handling

Protective measures- Ensure good ventilation of the work station. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear personal protective equipment (See Section 8). Do not breathe mist, vapors, spray. Do not get in eyes, skin or clothing. Do not swallow and avoid breathing

vapor or mist.

Advice on general occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage including any incompatibilities:
Store in accordance with local regulations. Store in original container protected from sunlight in a dry, cool and well- ventilated area, away from oxidizing materials food and drink. Store locked up. Keep containers tightly closed resealed until ready for use. Containers that have been open must be carefully resealed and kept upright to prevent leakage.

SECTION 08: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Exposure Limit(s)
No information is available

Appropriate Engineering Controls

Engineering Control(s): Ensure adequate ventilation, especially in confined areas. Ensure that eye wash stations and safety showers are close to the workstation location.

Environmental Exposure Control(s): No information available.

Individual Protection Measures

Eye/Face protection: Wear appropriate protective eyeglasses or chemical safety goggles.

Skin protection: Wear appropriate protective gloves and clothing to prevent skin exposure.

Respiratory protection: No protective equipment is needed under normal use conditions.

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Paste
Color	White
Odor	Pleasant
Odor Threshold (ppm)	Not Known

Vapor Density (air = 1)	Not Known
Vapor Pressure (mmHg)	Not Known

Evaporation Rate (Butyl Acetate = 1) No data available

Boiling Point	100˚C / 212˚F
Freezing Point	0˚C / 32˚F
Flash Point	No data available
Decomposition Temperature	No data available
Flammability	No data available
Density g/cm3	1.0
Volatile % By Weight	64.6
Ph	8.0 – 9.0
Solubility in Water	Dilutable in water
VOC (Less Water)	g/L Very Low

SECTION 10: STABILITY AND REACTIVITY

Reactivity: No data available**.**

Chemical Stability: This product is stable, under normal condition of storage and use.

Possibility of hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid: Avoid contact with strong oxidizers, mineral acids and bases. Protect from freezing.

Incompatible materials: No dangerous reactions known under normal conditions of use.

Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity

Component	LD50 (Oral)	LD50 (Dermal)	LC50 (Inhalation)
Propylene Glycol	3,200 mg/kg Rat	15,200 mg/kg Rabbit	>3.55 mg/L 6h Rat
2,2,4-trimethyl-1,3-pentanediol monoisobutyrate	20,000 mg/kg Rat	20,800 mg/kg Rabbit	Not Listed

Chronic Toxicity

Carcinogenicity: Not considered carcinogenic to humans.
Irritation/Corrosion- There is no data available.
Sensitization- There is no data available.
Specific target organ toxicity (single exposure)- There is no data available.
Aspiration hazard- There is no data available.

Product/ingredient name- There is no data available.
Information on likely routes of entry- Dermal contact, eye contact, Inhalation.
Potential acute health effects:
Eye contact: Moderate eye Irritant.
Inhalation: Irritating to the nose and throat.
Skin contact: There is no data available.

Symptoms related to the physical, chemical and toxicological characteristics:
See Section II

Delayed and immediate effects and also chronic effects from short and long term exposure:
Short term exposure:
Potential immediate effects: No known significant effects or critical hazards.
Potential delayed effects: No known significant effects or critical hazards.

Long term exposure:
Potential immediate effects: No known significant effects or critical hazards.
Potential delayed effects- No known significant effects or critical hazards.

Potential chronic health effects:
General- No known effects or critical hazards.
Carcinogenicity- No known effects or critical hazards.

Teratogenicity- No known effects or critical hazards.
Developmental effects- No known effects or critical hazards.
Fertility effects- No known effects or critical hazards.
Numerical measures of toxicity- No data available.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: Do not empty into drains. Contains a substance which is: Harmful to aquatic organisms. The product contains following substances which are hazardous for the environment.

Component	Toxicity to Freshwater Algae EC50	Toxicity to Freshwater Fish LC50	Toxicity to Freshwater Flea
Propylene Glycol	19,000 mg/L 96 h Pseudokirchneriella Subcapitata	710 mg/L 96 h Pimephales Promelas	EC50 >1,000 mg/L 48 L Daphnia magna, Static
2,2,4-trimethyl-1,3-pentanediol monoisobutyrate	18.4 mg/L 72 h Pseudokirchneriella Subcapitata	30 mg/L 96 h, Pimephales Promelas	LC 50 147 mg/L 48 h Daphnia magna

Persistence and degradability: Persistence is unlikely
Bioaccumulative potential: There is no data available
Mobility in soil: No data available.
Other adverse effects: There is no data available

SECTION 13: DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with current federal, state, provincial and local regulations.

Disposal methods- The generation of waste should be avoided or minimized whenever possible. Disposal of this product must be done in accordance with all federal and any regional local authority requirements. Care should be taken when handling empty containers that may have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil.

SECTION 14: TRANSPORT INFORMATION

UN Number: Not Regulated

Special Shipping Name: Not Applicable

PIN: Not Regulated

TDG: Not Regulated

DOT: Not Regulated, Not classified as a dangerous good under transport regulations

IMO: Not Regulated

ICAO: Not Regulated

ERAP: Not Regulated

SECTION 15: REGULATORY INFORMATION

International Regulations:
TSCA (Toxic Substances Control Act): All ingredients are listed within or exempted from US TSCA.

DSL (Domestic Substance List): All ingredients are listed within or exempted from Canadian DSL.

CEPA Status: All components of this product are listed on the domestic substance list

SECTION 16: OTHER INFORMATION

Regulatory Information: Not classified as a hazardous product under WHMIS 2015.

WHMIS 2015 (Canada): This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR), SOR/2015-17, and this Safety Data Sheet contains all of the information required by the HPR.

HMIS (Hazardous Materials Information List): Rating:

Health	1

Flammability	0
Reactivity	0
PPE	0

0 = Minimum 1 = Slight 2= Moderate 3 = Serious 4 = Severe

Further Information: For industrial use only. Keep out of reach of children.

Disclaimer: The information contained in this document is given without any warranty or representation. To the best of our knowledge, the information contained herein is accurate. Neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of this information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution.

SDS Prepared By: CBR Products Technical Department

Date of Latest Revision: 6 October 2026 | Revision 2.1, supersedes Revision 2.0 of 20 September 2026, which superseded March 25th, 2024 | Reason for revision: supplier address updated; WHMIS 1988 replaced with WHMIS 2015 (HPR); classified as not hazardous, no ingredient reaches an HPR cut-off; 6 October 2026: emergency telephone number and email address updated
